

BLADDER ACCUMULATOR HBS

CUSTOMISED SPECIAL SOLUTION

In addition, we offer customer specific solutions depending on the requirements of different areas of application e.g:

- » Energy technology: Wind power, hydropower, conventional power plants
- » Mobile technology: Agricultural machinery, construction machinery, transportation technology
- » Offshore oil and gas, maritime technology
- » Process engineering, chemical industry, water supply

VARIANT OPTIONS

BLADDER MATERIALS

HNBR
Butyl
Viton
EPDM
ECO

OTHER APPROVALS

ASME VIII Div. I App. 22
DNV maritime classification
Eurasian Customs Union TR-CU 032/2013
EX protection ATEX 2014/34 EU
More on request

SPECIAL PRESSURE RATINGS

COATINGS

Customised paintwork
Chemical nickel plating
Rilsan coating
Epoxy coating

MATERIALS

Oil connection and gas valves made of stainless steel

GAS VALVE

Gas valves from other manufacturers

CONNECTIONS

Oil valves with other thread types NPT
Metric thread

Example of a customised special solution: chemically nickel-plated accumulator body and with a special oil valve for an application in process engineering
